

US Appl. No: 10/538,405
Response to Restriction Requirement

RECEIVED
CENTRAL FAX CENTER

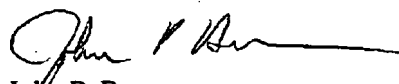

SEP 21 2007

REMARKS

The Examiner has determined that the present application contains claims directed to more than one species of the generic invention and requests election of a single species. In Response to the Restriction Requirement mailed July 24, 2007, applicants hereby elect the single species of an *in vitro* prokaryotic cell lysate expression system. Furthermore, applicants elect a cell lysate prepared from *E. coli*. The election is made without traverse.

Claims 1-10 and 19-23 are believed to be readable on the elected species. No claim amendments are submitted with this response. A copy of the pending claims is submitted for the convenience of the Examiner. Examination of the elected species and passage of the application to issuance is respectfully requested.

Respectfully submitted,

John P. Breen
